

200 cable tray at 45 degrees

Overview

Perforated 45 degree internal riser bend cable tray, manufactured from powder-coated steel, 100mm height, 200mm width, Corrosion and rust resistant design to ensure long lasting performance, manufactured by Habbal Alarabi factory (HEMCO). Today I will show you how to make an offset at 45 degrees in the fopper recipe. Initially I need to do 250mm US as I am starting my 250mm upset. My upset distance is 215mm. Ensure your cable tray solution is designed for your application, with our vast range of ladder tray fittings. All illustrations, descriptions and technical information included in this document are provided as indications and can cable trays are equivalent. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned. 45° & 90° flat bends are available for light, medium and heavy duty cable tray systems with widths ranging from 50mm - 900mm. So basically from my middle line what size to mark either side to cut my lip away to create different angles.
