

576-core optical fiber junction box self-operated

Overview

576 core outdoor waterproof dome optical fiber junction box wall/pole mounting has 16 circular cable entry hole and one oval hole, adopt the heat shrinkable seal, Can be used for aerial, pole and wall mounting; Good sealing performance, simple installation, it is the best. 576 core outdoor waterproof dome optical fiber junction box wall/pole mounting has 16 circular cable entry hole and one oval hole, adopt the heat shrinkable seal, Can be used for aerial, pole and wall mounting; Good sealing performance, simple installation, it is the best. 576 core outdoor waterproof dome optical fiber junction box wall/pole mounting has 16 circular cable entry hole and one oval hole, adopt the heat shrinkable seal, Can be used for aerial, pole and wall mounting; Good sealing performance, simple installation, it is the best option for the optical. Built-in direct splice unit is capable for providing direct connection function. connecting trunk and distributing optical fiber cable. Fiber optic cabinet, max up to 12/24/48 trays, 12 ports one tray, total 144/288/576 ports, FC or SC. The ODC series SMC Optical Fiber Cross Connection Cabinet is used for optical cable connection, distribution and management in outdoor fiber networks. The cabinet is with excellent performance, safe and reliable, flexible scheduling, and is. 1: suitable for optical fiber access network trunk optical cable and distribution cable node terminal protection, connection and scheduling management equipment, can achieve fiber fusion, handover, storage and distribution scheduling and other functions 2: the box body is made of high strength. Description: Cross Connection Distribution Cabinet is designed for a cross connection between telecom feeder cable and customer Description: Cross Connection Distribution Cabinet is designed for a cross connection between telecom feeder cable and customer cable.
