

ASEAN 100Mbps Single-Mode Optical Module

Overview

Designed for single-mode fibers, this module efficiently handles 100Mbps data rates over a 20km distance using Wavelength Division Multiplexing (WDM) technology with a single fiber at 1550/1310nm wavelengths. Leverage the capabilities of the SOLTECH SFP-SMWA 100M Optical Transceiver Module for advanced fiber optic networking. It uses LC connectors, operates at a 1310nm wavelength, and supports long-distance data transmission up to 100 kilometers, ideal for extending 100Mbps Ethernet links over. In the vast ecosystem of network infrastructure, the humble 100M optical transceiver (or 100M SFP module) remains a critical workhorse for enterprise access layers, industrial networks, and legacy system upgrades. Therefore, whether you are looking for Single mode SFP, Single mode CWDM, Single mode DWDM, or BiDi transceiver, OPTCORE is one of the. TESTED FOR COMPATIBILITY: Hot-swappable in MSA Compliant routers and switches; DDM support reports the transceiver's status to most SNMP network management tools.
