

Aggregation switch not powered on

Overview

Under Network -> Interface, try disabling and re-enabling the FortiLink interface.

Note: After the FortiGate device is upgraded from FortiOS 7. I turned on aggregation on both (1+2 on the USW Pro Aggregation and 51+52 on the USW Pro 48 PoE).

Connected only ONE fiber cable between them (didn't even get to the second cable) and the USW Pro 48 PoE goes offline and I. Port aggregation is not supported on most UniFi Gateways; it is only supported on the EFG, UXG Enterprise, UDM Pro, UDM SE and UDM Pro Max. set mgmt-vlan 1. Hi guys, I have an unusual issue. This managed Layer 2 switch is designed to enhance network performance with its eight 10G SFP+ ports, offering high-bandwidth. I was wondering if anyone has played around with the 8 Port USW-Aggregation switches and run into any issues if you try and create more than 2 aggregation groups ?

The ui.
