

Angola High Voltage Complete Set of Equipment

Overview

In June 2025, DINGLI successfully delivered the steel towers, steel structures, conductors, fittings, insulators, GSW, OPGW, high-voltage cables and outdoor/indoor cable terminations for the 220kV transmission line and high-voltage cable project in Angola. DINGLI successfully completed the delivery of the 220kV transmission line and high-voltage cable project supplied to Angola. In June 2025, DINGLI successfully delivered the steel towers, steel structures, conductors, fittings, insulators, GSW, OPGW, high-voltage cables and outdoor/indoor cable. ELSEWEDY ELECTRIC IS THE PARTNER OF CHOICE FOR MAJOR POWER UTILITIES IN THE MIDDLE EAST AND AFRICA. We offer complete EPC solutions for transmission lines with a wide range of configurations and voltages up to 500 kV. Complying with all international and client standards and supported by a network. Hydro'Mont specializes in electrical distribution systems, industrial equipment maintenance, and spare parts supply, serving clients throughout Angola with reliable and efficient solutions. In addition to supply, we also provide. The Government of Angola has signed a memorandum of understanding (MoU) with private engineering company ProMarks and Singapore-based commodity trader Trafigura to conduct a technical and economic viability study and to develop a Public Private Partnership model for a major regional power. ProMarks, an international engineering company specialized in the energy sector and Trafigura, a market leader in the global commodities industry, have today signed a Memorandum of Understanding (MOU) with the Government of Angola to conduct a technical and economic viability study and to develop a.
