

Belarusian Micro-module Order

Overview

At the moment, Belarusian factories are processing orders for manufacturing and supplying units and modules for aircraft, armoured vehicles, multiple rocket launchers, chips and microchips necessary for the production of missiles, and so on. Belarusian Integral is the only enterprise in Belarus specializing in microchip production. Their current level is the microchips of the late 90s, and the technological gap from the advanced 7 nm technologies is more than 15 times; The main focus of Integral's work is the Russian. MINSK, 14 June (BelTA - Russia is ready to place orders for microelectronics with Belarusian enterprises in order to replace supplies from unfriendly countries, Belarusian Industry Minister Piotr Parkhomchik told the meeting after a government conference on the development of the microelectronics. MAGAZINE «VPK. BELARUS» Magazine Archive VPK. BELARUS, № 1 - 2026 PDF VersionOur journalists are the recipients of the national award “Free Word” from the Association of Journalists of Belarus in 2018, 2019, 2020, 2021 and 2022. At "Free Word" 2021 BIC's team also received first place for Analytics The Belarusian Investigative Center (BIC) has found supply chains tied to. Belarusian enterprises work for the Russian military-industrial complex, as Lukashenko's country is part of the axis of evil / Collage of 24 Channel Self-appointed President of Belarus Alexander Lukashenko often repeats that his country is supposedly being “pulled into the war in Ukraine.
