

# Bhutan Intelligent Spectrometer

## Overview

Thrilled to announce the successful installation and commissioning of the Rigaku EDXRF spectrometer at the Department of Geology, Bhutan. This advanced Energy Dispersive X-Ray Fluorescence system enables:

- Rapid, non-destructive elemental analysis from Na to U
- Precise quantification of major elements

Laboid International is a renowned name in the field of Spectrophotometer in Bhutan, serving the scientific community. Our commitment to quality and innovation sets us apart. We specialize in providing a diverse range of Spectrophotometer that meets the highest industry standards. 81% in 2025, climbs to a high of 4. In the Asia region, the Spectrometer market in Bhutan is projected to expand at a stable. Aditya Systems has established its reputation in the domain and run under the brand name of LADA. We specialize in manufacturing a diverse array of precision quality laboratory instruments designed to meet the vast needs of scientific research, industrial applications, clinical diagnostics and. Galaxy Scientific, an industry pioneer in portable optical Near Infrared spectroscopy, is an agile innovator, enabling organizations to use the power of Near Infrared optical spectroscopy to analyze and authenticate important chemicals and.
