

Cable tray rapid climbing

Overview

Wire mesh tray made of steel with quick-connect Click system and rounded safety edge for the support and management of cables. Of 60 mm height, Width 60 mm, With EZ protection system. The Rejiband® Rapide Cable Tray is made up of wire mesh rods that provide high strength and elasticity. Got a question you would. The Rapid Rail International Vertical Cable System (VCS) is a wire rope-based fall arrest system, sometimes known as a "safe climb" that is designed for installation to electrical transmission and distribution towers and poles, telecoms towers and other similar structures. The system's stainless steel construction stands up to the elements for extended periods of time, allowing permanent installation. As a distributor of. Continuous Fall Protection and a cost effective way to cheat gravity! Ladder cable climb systems provide the ultimate in safety with continuous fall protection when climbing and descending fixed ladders.
