

# Cable trays for machinery and equipment

## Overview

Cable trays are produced in different heights and widths to give more choice for loading space availability. We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. The equipment used in this process varies from raw material handling tools to welding, surface treatment, and. Industrial-Trunking is the best option for safely routing large volumes of cables and lines through manufacturing equipment and in, along, and around machinery over long distances. Due to the large span capabilities of this DEFEM system, fewer brackets, rods and. Medium Duty Cable Tray Couplers Wrap over design - fits to the ends of Medium Duty Cable Tray For Joining 2 lengths of cable tray on a straight run Pre Galv Steel - British Standard Specification.
