

# Cuba Optical Router 40G

## Overview

Supporting 40km transmission over single-mode fiber with 4 CWDM wavelengths (1271/1291/1311/1331nm), this high-performance module delivers impressive 19 dB link budget at speeds up to 44.3ba compliant with duplex LC connectors for extended metro deployments. All Juniper 40G optics are compliant with key industry standards and specifications for seamless interoperability in multivendor environments and are qualified for. Support 40G ethernet, data center, enterprise, and Infiniband applications with Precision OT's range of 40G QSFP+ optical transceivers for link distances of a few meters up to 80km. The 40G QFSP+ transceivers feature varying specifications to meet your unique network needs. This includes short. The Arista Universal transceiver is the first of its kind 40G transceiver that aims at addressing several challenges faced by today's datacenters. Available in Multimode, Single Mode, Extended Range & Long Reach Multi-mode.
