

FX2 Optical Module Switch

Overview

The Cisco Nexus 9336C-FX2 Switch (Figure 1) is a 1RU switch that supports 7.2 Tbps of bandwidth and over 2. The switch can be configured to work as 1/10/25/40/50/100-Gbps offering flexible options in a compact form factor. Breakout is supported on all ports. The platform support cost-effective cloud-scale deployments, an increased number of endpoints, and cloud services with wire-rate security and telemetry. Ideal for data centers, it offers robust performance with enhanced scalability, ensuring high-speed connectivity with its 100G optics, suitable for engineers and procurement.
