The HERMI team will be happy to advise you and help you find the most suitable solution for your situation. Let us know about your needs and wishes. Cable trays are intended for the. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. Cablofil cable tray is the preferred choice for the cable containment of low and high voltage electric cables where fire resistance is crucial - this includes cable basket tray systems for Prysmian FP (FP400 and FP600) and Draka Firetuf type cables. Meka Pro has tested and continues to test its products and cable management systems' fire resistance with the cables installed and connected according to the temperature curve in the EN 1363-1. Fireproof Cable Trays help make sure these systems run when they are most needed. This helps people leave safely.
