

# Gabon Cable Tray Adaptation Project

## Overview

Backed by a US\$150 million IBRD loan, the project will improve access to climate-resilient urban infrastructure and public facilities and reduce flood risk, ultimately benefiting an estimated 301,000 people across seven cities, roughly half of whom are women. Rotterdam, the Netherlands, 20 May 2025 — The Global Center on Adaptation (GCA) is partnering with the World Bank on the Gabon Urban Development Project to strengthen climate resilience in the country's rapidly growing secondary cities. In this regard, the Gabonese government has requested support from the African Development Bank (AfDB) in the form of supplementary financing to: (i) build 2185 km of priority. The Government of Gabon shares our passion for sustainable infrastructure that has a transformational impact on people's lives and livelihoods. TNA is specially designed to assist developing countries, that are party to the UNFCCC, determine their technology priorities for the mitigation. Market Forecast By Product Type (Cable Trays, Cable Ladders, Cable Raceway), By Application (Industrial, Commercial, Residential), By End User (Construction, Automotive, Energy), By Material (Plastic, Metal, Composite), By Technology (Smart Systems, IoT Enabled, Fire Resistant) And Competitive.
