

Htjb-iv Relay Protection Tester

Overview

Buy HTJB-IV Protection Relay test set HTJB-IV, Protection Relay test set, 1. Overview HTJB-IV relay protection tester is a new generation of test equipment developed on the basis of the original HTJB-III. The AC and DC voltage and current sources inside the instrument adopt the latest power supply technology, which provides convenience for on-site personnel to use power supply. circuit breaker tester, relay protection test set, single phase protection relay calibrator Product overview HTJB-IV Protection Relay Calibrator is newly developed/generated Calibration device. Various technical indicators fully meet the Ministry issued a DL / T624-1997 "microprocessor-based relay protection test device technology".
