

# Huawei Sells Data Centers

## Overview

Chinese technology giant Huawei has put up for sale a major 513-acre Cambridge industrial, life sciences, residential and data centre development opportunity where it had been proposing to build a £1 billion research centre. In recent years, the rapid progress of AI has prompted various industries to shift focus from digitalization to digital and intelligent transformation. Knight Frank has been appointed on Cambridge Campus, a property expected. By integrating digital and power electronics technologies, Huawei Digital Power utilizes each watt in a more low-carbon, reliable, and efficient way. We provide Data Center Facility & Critical Power solutions for data center operators and enterprises in their journey towards intelligent computing. Huawei Digital Power Global CTO Sanjay Kumar Sainani outlines strategies for sustainability and heat reuse as demand surges for cloud and AI infrastructure As businesses and consumers increasingly rely on digital services, the need for robust, efficient and sustainable data centre infrastructure. The Global Data Center Facility Summit 2024 saw more than 600 industry leaders descend on Singapore to discuss new trends and opportunities of the global data centre industry in the intelligent computing era. Attendees also got to experience all-scenario, all-ecosystem, and all-service end-to-end. [Shanghai, China, September 19, 2025] Huawei held its first Data Center Innovation Summit themed Leading AI DC Innovation for an Intelligent Future during HUAWEI CONNECT 2025. The summit gathered more than 700 industry leaders and experts worldwide to explore the high-quality construction and.
