

# Huawei optical module HSC

## Overview

The GPON OLT CLASS C++ HSC Huawei is a high-power optical transceiver module from Huawei, purpose-built for OLT (Optical Line Terminal) equipment in Gigabit Passive Optical Network (GPON) environments. Huawei offers a comprehensive portfolio of pluggable StarryLink optical modules for data center networks, with various models providing flexible plug-and-play solutions tailored to diverse interface requirements. Huawei GPON OLT C++ SFP is inserted in service board like GPFD GPBD GPBH GPHF etc and provides one or more transceiver module slot. It provides a full range of optical transceivers, such as SFP+ (SFP Plus) transceiver, X2 transceiver, XENPAK transceiver, XFP transceiver, SFP (Mini GBIC). The GPON OLT Class C+ HSC Huawei Optical Transceiver is a high-efficiency plug-in module specially engineered for Huawei's OLT systems. We bought 300pcs C+ module from XPONSHOP, none of them is defective. Our super fast turnaround times and high quality stock located all around the world, mean we can ship same-day replacements exactly to where they are. In the AI era, Huawei provides a full range of GE to 800GE optical modules, featuring three major capabilities: Spanning (ultra-long transmission), Stable (ultra-high reliability), and Secure (ultra-solid security). Together, they ensure resilient data center interconnectivity and empower.
