

Information Distribution Box IBU

Overview

IBU is the largest European program operator focused on construction materials. It published 533 individual EPDs in 2024 and another 300 tool-generated ones, lifting its annual total past 840 and its all-time library above 4,700 (IBU, 2025). EPD Datasets (Total number of entries: 3999 of 3999) (Page 1 of 80) General Terms of Use of IBU. data platform the Institut Bauen und Umwelt e. makes available a standardised digital database for the life-cycle assessment of structures whereby building materials and building. The IBU provides material support for all developing NF members through cooperation with IBU's supplying partners. According to the current development principles, support is given to NFs from B, C, D, and E development categories, which have at least 4 athletes competing in a minimum of 2 IBU Competitions. (IBU) hosts more than 4,700 EPDs and saw 390,000 downloads last year alone, making it the busiest gatekeeper for EN 15804 data. IBU thereby permits and promotes the use of EPD data for calculating. What is an EPD?

Here, you will find answers to frequently asked questions about the IBU, membership, content, benefits and the preparation of EPDs and IBU services.
