

Is fiber optic cable or network cable better

Overview

Fiber is faster, highly reliable, more durable, and great for cloud-based or real-time work. Cable is cheaper to install and more accessible but can get slower during busy hours due to shared bandwidth and asymmetrical speed. cable internet speeds, reliability, and costs to find the best network connection type for your needs. Learn the pros and cons in this guide. Cable utilizes familiar copper wiring originally built. This guide compares fiber-optic cable and traditional copper internet cable (coaxial cable) across key factors: technology, speed, reliability, and cost in 2025. Plus, it's more widely available than fiber. TechnologyAdvice is able to offer our services for free because some vendors may pay us for web traffic or other sales opportunities. Because data can travel faster across greater distances with glass than with cable, the connection speed is much faster with a 100% fiber-optic network.
