

Japanese Flame-Retardant and Fireproof Cable Trays

Overview

Factories in Japan prioritize fire-resistant cable trays to enhance safety and operational reliability. Their durability. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. FireResistant Solutions provides cable tray covering and fire-protection systems designed to safeguard electrical and data infrastructure in commercial and multifamily buildings. In the event of a fire, it is necessary to maintain the functionality of certain electrical installations, such as. Cable trays are intended for the construction of fire-resistant cable paths. Do you need help with your purchase?

The HERMI team will be happy to advise you and help you find the most suitable solution for your situation. Let us know about your needs and wishes.
