

Japanese butterfly optical cable manufacturer

Overview

Since 1986, Hitachi Cable has been developing technologically advanced copper and fiber optic communication cables. Their dedication to engineering perfection is evident in the consistent quality and performance of all the cable products they manufacture. Furukawa Electric Group offers comprehensive solution for passive products including the variety of optical fiber cables from central office to each FTTx subscriber realizing the FTTx network construction. Japanese manufacturers are at the forefront of developing advanced fiber optic solutions that power global telecommunications, data. Furukawa Electric Group specializes in telecommunications and offers a range of fiber optic cables and components as part of its information and communication solutions. Their expertise in advanced materials and photonics ensures high-quality products that enhance the conveyance and connection of. On May 15, 1915, Predecessor of Toyokuni Electric Cable, Co., was founded in present Negishi, Taito-ku, Tokyo. Started manufacturing electric cords/cables. The increasing adoption of high-capacity optical networks has intensified competition, emphasizing innovation in cable design. When it comes to reliable, high-quality cables, Japan has long been a global leader.
