

KPx1 Distribution Box

Overview

In the distribution box made of 1 mm galvanised sheet steel a hammer head rail serves as input for the data side. The Key-Stone modules are enclosed and must be installed on site. Distribution boxes with M8 and M12 connection cables made on both sides facilitate the wiring of sensors and actuators (short cable routes and less wiring effort). distributor, 26x191x30mm, 10-30V DC, 12x. Equipped with VD wire 2. Six cut-outs are provided in the distributor for the installation of RJ45 Key-Stone modules. It then discusses key features of the KPX kiosk substations including their internal arc protection, oil containment. Murrelektronik supplies a comprehensive range of distribution boxes: They create optimum installations for any application and are cost-effective, reliable, and space saving solutions! Saves space! Fewer terminal blocks, fewer cable entry systems, and fewer terminal boxes in the field are.
