

# Large-capacity optical junction box for main trunk

## Overview

Featuring industrial-class design with ODVA MPO-12 Male connector and 4 x ODVA LC/UPC connectors, this passive module provides below 0.8 dB insertion loss for 850nm applications. Robust construction ensures reliable fiber breakout in demanding deployment environments. Fiber distribution box is suitable for the wiring connection of optical cable and optical communication equipment, through the adapter in the wiring box, the optical jumper leads the optical signal, and realizes the optical wiring function. In this way, we. The GZR Series 19" Rack-mounted Terminal Box (Rail-based) is a functional component for optical fibre distribution frames or network integrated cabinets, offering fibre splicing, distribution, and tray storage. CAHORS offers complete solutions for FTTH distribution in residential. MBN-FOSC-A7 big capacity madidi fiber optic Junction Box is used for FTTx network projects to protect and arrange the fiber cable, ensure the long service life of FTTx network, with big capacity and multi ports, suitable for CATV networks, optical fiber communication, local area networks, etc.
