

Latvia optical fiber cable

Overview

The leading Fiber Optic Cable Manufacturers in Latvia are listed in this directory. You can narrow down the list of manufacturers based on their location and capabilities, browse their product catalogs, view their profiles, and send inquiries. Demand for high-speed internet in Europe is on the rise due to the increase in data-intensive services, like streaming. Latvia's market for optical fiber cables is characterized by significant import reliance and a high-value export profile. From 2020 through 2024, the country sourced over half of its import value from Poland, with China and Germany as other key suppliers. Adhering to stringent quality standards, our cables are Telcordia GR-20-CORE and ICEA S-87-640 certified, ensuring top-notch solutions. Early on January 26th, the submarine optical fiber cable in the Baltic Sea belonging to SJSC Latvia State Radio and Television Center (hereinafter - LVRTC) was damaged. Top exporting countries such as Germany, USA, UK, China, and Canada continued to play significant roles in supplying fiber optics to Latvia.
