

# Mesh cable tray hoisting away from the top of the cabinet

## Overview

An FASP support can be bolted directly to the cabinet. If the wire mesh cable tray is to be raised a specific height above the cabinet, then we recommend a UFS support bracket or an FASP elevated with threaded rods. Depending on the type and version of mesh cable tray, as well as the corrosion protection used, the mesh cable tray systems can be ambient temperatures of - 20 °C to + 120 °C. At temperatures below - 20 °C, the material will be any other purpose than. Several mounting options are available for wire mesh basket trays and cable trays, improving safety, ease of maintenance, and overall effectiveness. Wire mesh basket trays are an excellent option for a flexible and efficient cable management system. Function: Supporting trays on cabinet tops or floors, with 120mm height, other height can be customized. Includes: Trapeze Bar × 1, Foot × 2, Bolt & Nut × 1. Includes: v. Ideally, I would like to attach a cable tray below the rear of the desk top, but with a desk width of 80 cm, I'm not sure whether the E7Q frame will leave enough space for that?

If not, is it possible to mount a cable tray on the rear pair of cross bars of the frame?

What are my options?

Any advice. An FASP support can be bolted directly to the cabinet.
