

Monitoring Access Switch Configuration Details

Overview

Use Automated switch port mapping, PoE management, Configuration management, and pre-configured SNMP templates to monitor your switches, firewalls, and access points. This article explains how to monitor the configuration update status from the Dashboard to ensure that the Cisco Meraki devices are up to date. Note: Devices managed with Cisco Meraki Endpoint Management are handled differently, so this article's contents do not apply to their configuration. Switch List: Navigate to Switch >. Here is our list of the best switch monitoring software packages: Paessler PRTG EDITOR'S CHOICE A collection of monitors that includes switch monitoring with SNMP, NetFlow, and other traffic sampling standards. ManageEngine Switch Monitoring with OpManager (FREE TRIAL) A. Switches are fundamental components of modern networks, serving as the backbone of both performance and reliability. It's only natural, then, to implement a switch. This guide is designed to help you improve your understanding of network switch management and switch monitoring.
