

# New Zealand Ladder-type Cable Trays

## Overview

Ladder cable trays have a ladder-like design with horizontal side rails connected by rungs. The rungs provide support for cables and allow easy access for maintenance. This design offers excellent ventilation for cables, preventing heat build-up and supporting heavy cable loads over. Our FRP cable ladder systems are equipped with required fittings like tee sections, cross sections, internal and external bends of different degree (45o and 90 o), horizontal bends, couplers, anchoring, reducers and support systems. Treadwell's FRP cable ladder systems are lightweight, fireproof. We have a full range of FDG Cable Tray, Cable Ladder, Cable Basket and other Support Products for Cable Systems in stock and ready to deliver. Designed to simplify and reduce the cost of supporting cables and wires - FDG Cable Support Products can be used to continuously support your cable systems. Steel & Tube offer a full range of cable trays and cable ladders suitable for all cable containment, and additionally can provide full take-offs from plans through to a complete quotation. Click the Design details link for access to a large library of BIM-enabled 2D and 3D CAD roofing details. We, one of the foremost Ladder Cable Tray Manufacturers in New Zealand, are offering a secure and efficient solution for all your cable management needs. They are typically made of metal and consist of a series of interconnected channels that form a pathway for all types of cables, which are placed inside the trays and can be.
