

# OEM Optical Line Terminal 200G

## Overview

UnitekFiber's OSFP56-200G SR4 transceiver module is designed for use in 200-BASE Gigabit Ethernet links up to 100m throughput over multi-mode MTP/MPO fiber patch cord. Click to get your 200g transceiver modules and optical cables from nearby warehouses. Trusted by 260K+ Enterprise Users. Our OEM/ODM services provide full customization to support your unique application, enabling seamless. Detailed information of 200G offered by Formerica Optoelectronics Inc. Engineered for reliability and scalability, these transceivers ensure efficient and seamless communication across various network. Sanopti's 200G QSFP56 portfolio consists of transceivers which can operate over Single-Mode Fiber (SMF) or Multi-Mode Fiber (MMF), can be used for connection distances from a couple of meters up to 2 kilometers and can support up to 212. 200GBASE-SR4. The 200G transceiver represents a critical advancement in high-speed optical connectivity, delivering the performance and efficiency needed for modern data centers, cloud networks, and 5G infrastructure. Designed in compact form factors such as QSFP56 and QSFP-DD, these transceivers support 200G.
