

Optical Aggregation Switch 12 Optical

Overview

The SM12XPA switch provides 340 Gbps switching capacity with (12) 1G/10G SFP+ and (2) 1G/10G/25G SFP28 slots and (1) RJ-45 console port. It offers high performance and reliability for high bandwidth aggregation and access network applications. With AXIS D8308 Fiber Aggregation Switch you can connect multiple Axis devices using fiber midspans over long distances. OVERVIEW The ONV56012FM is a 10G managed Ethernet fiber switch independently developed by ONV. It has 12*1/10G SFP+ fiber ports. Each port supports wire-speed forwarding. Equipped with future-proof fiber-optic and multi-Gigabit Ethernet (mGbE) ports as well as high-throughput uplink. Multi-gigabit optical aggregation series is my company based independent software research and development from a fiber aggregation switches, which have 8 * 1000M optical ports and 2 * 10/100 / 1000M adaptive Ethernet electrical interface., Transmission distance: Multimode: 550m; Single-mode:.. DiCon's GP800 12x12 Optical Switching System is an all-optical non-blocking cross-connect switch. This rack-mount device is designed with DiCon's proprietary 3D MEMS mirror technology and delivers industry-leading optical performance. The unit works without any position sensor or feedback loop.
