

# Optical Cable Processing and Traction Equipment

## Overview

Optical cable traction machines are widely used in optical fiber communication, power, and municipal engineering for cable laying and construction. They can lay up to 288-core optical cables in underground, overhead, or pipeline scenarios, with automatic pre-tension adjustment to. BM-Rosendahl is the global supplier of production equipment for lead-acid and lithium-ion batteries. The portfolio ranges from solutions and equipment for enveloping, sleeving, wrapping & stacking, cast-on-strap to the assembly of automotive, motorcycle, industrial, and e-mobility batteries. Anhui Sitong Electromechanical is our factory, we are Anhui Sitongan Import and Export Trading Company, mainly responsible for domestic sales and foreign trade business. The company is an innovative enterprise specializing in the research, development, production and sales of special equipment for. With technology as the primary productivity, Clusterasia Corp offers an efficient, time-saving and labor-saving cable tractor that solves a major problem in cable construction. During the construction process, the machine. At Conductix-Wampfler, we deliver high-performance machinery engineered for the precise and efficient production of fiber and cable products.
