

# Optical cable JYTA

## Overview

8 Cores GYTA Aluminum Jacket Stranded Loose Tube Light Armored Cable Fiber Optic Cable (Aerial and Duct) These aluminum tape armored cables GYTA are suitable for installation for long haul communication and LANs, especially 8 Cores GYTA Aluminum Jacket Stranded Loose Tube Light Armored Cable Fiber Optic Cable (Aerial and Duct) These aluminum tape armored cables GYTA are suitable for installation for long haul communication and LANs, especially suitable for the situation of high requirements of moisture resistance. GYTA is the stranded loose tube fiber optic cable with low dispersion and attenuation. Proper design, precise control for fiber excess length and distinct stranding process render the cable excellent mechanical and environmental properties. Aluminum-PE jacket makes the cable have nice properties of moisture resistance. With small cable diameter, light cable weight, easy to lay. The jacket also can be made of. Laying modes: Aerial & Conduit. Long-distance communication, local trunk line, CATV & computer networks system. Package and Shipping Mark of fiber optic cable: Printing at outer jacket of fiber optic cable. White color printing words at each meter distance, standard printing content as following, also can match the customer. -Meter Marker -Style of op.
