

PZ30 Lighting Distribution Box Model

Overview

The PZ30 series lighting distribution box features a detachable three-part structure comprising the base, flange mounting bracket, and cover. It is equipped with neutral (N) and earth (PE) terminal blocks, DIN standard rails, and knockouts on both the top and bottom of the. Enecell is a famous China PZ30 Electric Lighting Power Box Manufacturers and Lighting Distribution Box Suppliers, The PZ30 Lighting Distribution Box offers versatile applications, user-friendly design, and comprehensive protection, making it an ideal choice for modern buildings. It is used for power and lighting distribution, motor control, and provides overload, leakage, and short-circuit. The PZ30 Series Low Voltage Distribution Box is a modular electrical cabinet designed for safe and efficient power distribution in 220V/380V circuits. It is suitable for AC 50Hz, 220V/380V (single-phase three-wire / three-phase five-wire) terminal circuits with a total current of $\leq 100A$. It realizes power distribution and triple protection.
