

# Price of matching electricity meter and electrical box

## Overview

Replacing a home meter box typically costs between US \$500-\$2,100, though large or complex jobs — like 400-amp or full service upgrades — may reach \$5,000+, depending on wiring, permits, and labor. If your electric meter box is damaged, it's your responsibility as the homeowner to repair or replace it. They allow for easy access for readings and maintenance, as well as help safeguard sensitive equipment from vandalism, accidental damage, and harsh weather conditions. Manufactured from durable materials, an electrical meter box houses the utility meter, service disconnects, and conductors in a code-compliant, weatherproof enclosure that forms the critical interface between the utility supply and the building's electrical system. Typical residential installations or replacements range from \$600 -. Are you looking for electric meters, meter boxes, prepayment meters, amp transformers and related accessories for both residential and commercial projects?

We've got everything you need for your electrical and lighting projects here at BES. While the cost can vary depending on material, size and labour, it's useful to have an idea of what to expect before getting quotes. What's The Average Cost of Replacing a Meter Box?

The price of a new electric meter box replacement is essential for protecting your electrical meter from weather, tampering, and damage — while keeping your installation safe and regulation-ready.
