

Somali Optical Cable Production

Overview

Somalia has two existing fiber optic network systems connecting it to the global internet: (1) the West Indian Ocean Cable Consortium's (WIOCC) East Africa Submarine Cable System (EASSy), a 10 Tb/s fiber optic network; and (2) DARE1, a 100G subsea cable. Through the country's 9th National Development Plan, the Somali government considers ICT a national priority, noting its importance as a key enabler for sustainable economic growth, the flourishing of other industries, and productivity gains. The Somalia Investment Agency (SOMINVEST) has developed. 6Wresearch actively monitors the Somalia Fiber Optic Cable Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help businesses to make data-backed strategic decisions with ongoing market dynamics. This initiative goes beyond merely improving connectivity, aiming for transformative changes across economic, social, and technological landscapes, with the. Dalkom Somalia offers access to a seamless network covering 30 African countries via more than 55,000km of optical fibre serving more than 500 African locations. Dalkom Somalia's international reach extends to 100 cities in 29 countries in Europe and more than 700 cities in 70 countries globally. In. f Somalia, located on the coast of the Horn of Africa, relies heavily on remittances and traditional livelihoods that are highly vulnerable to climate change. 2 percent of the country's GDP. The.
