

Standard Class I 300A Distribution Box

Overview

This 300-amp rated power distribution unit is compatible with three-phase 208Y/120 VAC Grounded Wye, 60Hz. Equipped with an open-bottom configuration, the system is encased in a NEMA Type 12 enclosure that is painted ANSI 49. For decades, the only explosion protection technology available in North America was the cast metal enclosure systems designed for Class I, Division 1 environments, also known as NEMA 7 explosionproof enclosures. By acting as a central hub, they provide controlled power supply to connected devices, ensuring safety. Glass Fiber Nylon base and enclosure ensures great mechanical strength and durability. The bus is made of brass and nickel plated, which has good electric conduct performance and sturdy rust-resistant. Module box design for easy wiring. ABB Mini Center Compact distribution board is the basis for development and growth in meeting all the demands for a successful future in residential, commercial, and infrastructure segments. 120-3P-300A-N12-M1 from Larson Electronics is a Switchboard with Main Circuit Breaker for power distribution systems.
