

Standard secondary distribution box 1600A

Overview

This end tap box is rated 1600A, that is ideal for 3 phase, 4 wire commercial or industrial applications. This end tap box can be used with. POWER DISTRIBUTION BOARDS UP TO 1600 A according to IEC 61439 Protection Class II 4_ Electrical energy flows everywhere. It provides light, heat and movement. Large Equipment (Any External Dimension More Than 50 cm)The product is verified as being authentic; however, this does not guarantee the condition or fit for purpose of the product. Note: If file (s) are missing from the. zip download then the file type is not supported by bulk download. Manufactured to BS EN 61439-4 standard. ✓ Adjustable electronic trips on all MCCBs down to 40% of nominal rating, enabling the MDA to meet a wide range. The QDX and CVX range are the best system solution for the installation of all the modular and moulded case circuit breakers, starting with the QDX 1600 main distribution cabinets for the secondary distribution up to 1600A, moving on to the QDX 630 secondary distribution boards (up to 630A) and.
