

Taiping Optical Cable Junction Box Company

Overview

Taiping Communication is a national high-tech enterprise focused on providing physical connection devices, application solutions, and technical services for FTTX access networks, wireless access networks, and transmission networks. The Optical Cable Joint Box is a premium choice in the Fiber Optic Equipment category. These savings enable you to customize to your exact specification, whether. ODN Network The Optical Distribution Network (ODN) is a fiber-to-the-home (FTTH) optical cable network that operates on PON equipment. Its primary function is to facilitate optical transmission pathways between the OLT and ONU. Functionally, the ODN can be segmented into four components: the feeder. FTB-104B Fiber Optic Customer terminal box FTB-104B Terminal Box adopts a compact plug-in design, combines a Integration, Multi-function, Modern design concept. Is a professional OSP solution provider. We have 4 factories in Shenzhen and Ningbo to develop and manufacture fiber optic communication products, including fiber optic jumpers, attenuators, distributors, splice boxes, cable. This box is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. Meanwhile, it provides solid protection and management for the FTTx. Trade Alerts are FREE updates on topics such as trending hot products, buying requests and supplier information - sent directly to your email inbox!.
