

Taiwan Mozambique High and Low Voltage Complete Sets of Equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. The ACSR is mainly used in some high-voltage lines. Our main business activities are focused around: Major corporate electrical contractors. Major corporate. GGD is a Fixed Complete-set Switchgear Equipment with simply and flexibly. The IBDG-90KVA transformer is a high-power industrial welding transformer designed for spot welders and butt-welders, featuring 90KVA rated power, 2-phase 825V input, and 7-step voltage output (0-578V).
