

The distribution box cannot be reset

Overview

In this situation, we are required to follow the below process to fix the issue. Solution Approach Execute FM /SPE/DELV_RESET_DIST_STATUS with delivery # and status D. Now go to VL02N and click on save so that delivery gets distributed. The LE outbound delivery distributed to EWM will have the distribution status as B (Distributed). To overcome this, we can use the function module /SPE/DELV_RESET_DIST_STATUS to change the distribution status to A (Relevant) or D (Planned). When I make a purchase order, and I click DISTRIBUTE AMOUNTS, I get this error " The Accounting distribution form is not available because there are no amounts to distribute" Could someone guide me?

Thanks in advance! ☐Something went wrong generating the summary. Here you. When you update to Dynamics 365 Supply Chain Management version 10. This feature is useful when distributions may be incorrect.
