

VCI energy-saving cable tray supply

Overview

The energy-saving steel cable tray using high corrosion resistance VCI (gas phase corrosion inhibition) bimetallic composite coating technology has high load strength and long-term resistance to salt spray and chemical gas corrosion, providing electrochemical cathodic. The energy-saving steel cable tray using high corrosion resistance VCI (gas phase corrosion inhibition) bimetallic composite coating technology has high load strength and long-term resistance to salt spray and chemical gas corrosion, providing electrochemical cathodic. The bridge frame has undergone VCI bimetallic coating surface anti-corrosion treatment, which has extremely strong corrosion resistance. Its advantages are as follows: 1. The VCI coating has good adhesion with the steel plate, making the adhesion of the coating layer reach zero level; 2. VCI anti. Richeng is a leading Cable tray manufacturing and R & D units, at present the service in Jiangsu, Shanghai and other regions, product quality is stable, reliable, with good market reputation. Is the supplier of high-quality bridge industry. Medium Duty Cable Tray Couplers Wrap over design - fits to the ends of Medium Duty Cable Tray For Joining 2 lengths of cable tray on a straight run Pre Galv Steel - British Standard Specification. An enterprise integrating sales and service, The company is located in the beautiful Jinhua- Meijiang Town, Lanxi. VCI cable tray, nearly starting from \$0. Our cable tray systems securely hold and protect cables and come in many models and sizes, solid bottom and ventilated.
