

Venezuela Fiber Optic Cable Laying

Overview

The Venezuelan government has begun laying a 1,600-kilometer submarine fiber optic cable to Cuba to facilitate access to telecommunications in the Caribbean region. Venezuelan and Iranian authorities announced this weekend the signing of an agreement to build a fiber optic factory in the South American country, more specifically in La Guaira, a State just 30 kilometers north of Caracas and home to the country's gateway Simón Bolívar Airport. Signing the. In the state of La Guaira, a strategic alliance was signed with the company MDC to begin the adaptation works of the Investment Center, in the old Caracas warehouse in Catia la Mar, in order to install the first fiber optic factory in the country, as reported by the governor of the entity, José. The new plant, named Venefibra, represents an effort in the pursuit of technological sovereignty and economic diversification. An Iranian fiber optic factory has commenced operations in Venezuela as part of expanding the. Iran has significantly enhanced its presence in Latin America by launching a state-of-the-art fiber optic plant in Venezuela.
