

Vietnam gigabit optical module

Overview

10GBASE-LR compatible SFP+ transceiver supports up to 10km link lengths over LC duplex SMF fibre. This transceiver is compliant with SFF-8431, SFF-8432 and IEEE 802. Digital diagnostics monitoring is available via a 2-wire serial interface, as specified in SFF-8472. LINK-PP offers a wide range of cost-effective, reliable optical modules that support high speeds and long distances. Both companies benefit from market growth, technology innovation, and. Vietnam Fibre Optic Components Market was valued at USD 583. 17 million in 2022 and is anticipated to project robust growth in the forecast period with a CAGR of 9. The growth of 5G networks and fiber-to-the-home (FTTH). FPT Telecom International is a prominent telecommunications and IT company in Vietnam that offers a variety of services, including private internet connections and domestic and international data transmission channels. Their focus on flexible IT infrastructure and commitment to exceptional service. On May 31, Nokia Corporation announced a cooperation program with Vietnam Posts and Telecommunications Group (VNPT) to deploy the first 5 Gigabit per second (10 Gb/s) fiber optic broadband infrastructure in Vietnam. These are supported by our strong R&D.
