

What kind of support frame is best for mesh cable trays

Overview

Ceiling-Mounted Supports: If you have the space or are working in a large area, ceiling-mounted supports are perfect for suspending your wire mesh baskets. They help keep cables organized and out of the way without compromising access or ventilation. The cable support lengths and fittings can basically be designed as cable trays, cable ladders or mesh cable trays, in which cables are routed. Normally trays are made to be 3m lengths. Today, electrical cable trays have become an essential component in industrial and commercial construction, providing a quick, economical, and. ABB saves time and labor with its comprehensive lines of metal framing and cable tray, including the industry's only 100% plated products, our 1 1/2" modular system, and hundreds of accessories to complete any job. Modular framing: With our Kindorf ® 1 1/2" modular channel system, all parts fit all. Several mounting options are available for wire mesh basket trays and cable trays, improving safety, ease of maintenance, and overall effectiveness.
