

What router should I use for a home fiber optic connection with 1Gbps bandwidth

Overview

Wi-Fi 6 or 7 is essential for maximizing fiber internet speeds—especially on plans 1 Gbps and higher. The Netgear Nighthawk RS700S is the top all-around choice, offering cutting-edge Wi-Fi 7, wide coverage, and multi-gig speeds. Looking for the best router to optimize your 1Gbps internet speeds?

Frustrating slowdowns and interruptions don't have to plague you—with the proper equipment, you can maximize the full potential of your powerful connection. In this guide, I'll examine several top-tier options to help you find the. A fiber-optic connection is the best choice for fast home internet as it has a number of advantages compared to traditional copper cables, such as faster speeds and less interference. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. For budget-conscious households, the TP-Link Archer AX55 delivers reliable Wi-Fi 6 performance without the premium price tag. Coverage depends on the home layout, so large or multi-floor homes benefit from mesh systems or routers with a strong range.
