

# Which company makes the PS6923 relay protection device

## Overview

SIPROTEC has established itself on the energy market for decades as a powerful and complete system family of numerical protection relays and bay controllers from Siemens. SIPROTEC protection relays from Siemens can be consistently used throughout all applications in medium and high. A protective relay is a device that instantly detects sudden changes in current and voltage occurring in power system equipment and sends a control signal to the circuit breaker to isolate the faulty point. In order to identify problems including overloads, short circuits, and ground faults, they keep an eye on several factors, including current. Appendix The products and systems described in this catalog are manufactured and sold according to a certified management system (acc. to ISO 9001, ISO 14001 and BS OHSAS 18001). This list is not a ranking by size. Instead, it balances global industry leaders with key specialists who excel in specific technologies. 5 billion by 2034, expanding at a CAGR of approximately 6.

Top 10 Relay Manufacturers for December 2025

ABB has been in electrical components and device manufacturing for over 130 years. With their prime experience and expertise in innovations in product development

Mar 29, 2026

Top 10 Electronic Relay Manufacturing Companies and

Relays are crucial components in modern electrical systems, used for switching and protecting circuits in various industries, from automotive to

Jul 12, 2025

Leading manufacturers of Protection Relay industry

ABB Ltd. is recognized for its comprehensive range of protection relays designed for reliable and efficient energy distribution. The company focuses on smart and eco-efficient solutions, catering to

Nov 01, 2025

The Top 10 Relay Manufacturers List of 2026

A large company like TE Connectivity might have a solution for almost any application, while a specialized company like GEYA focuses deeply on

Feb 02, 2026

Power Relay Manufacturer

Power relays use the principle of electromagnetic effects of magnetic-current interactions. A power relay usually consists of a coil, an armature and a set of contacts. When a voltage is applied to the coil, an

Nov 09, 2025

44 Protective Relay Manufacturers in 2026

The company makes TESLA power system recorders, relay test blocks, portable recorders, protection relays, and transformer protection relays used in wind

May 12, 2026

Top Protective Relay Companies 2034 | Market Leaders

ABB, Siemens, and Schneider Electric collectively hold a dominant share due to their global presence and comprehensive portfolios. Mid tier players such as Eaton

Dec 10, 2025

Protection, Control & Metering

GE Vernova's Protection, Control, and Metering solutions deliver precise, high-performance automation for today's evolving grid. From advanced relays to
